

Setting the standard for excellence in cardiovascular care and providing the highest quality service to our patients and referring physicians.

MEET OUR PHYSICIANS

Leaders Transforming Health Care

Winchester Cardiology and Vascular Medicine (WCVM), and its subsidiary Panhandle Cardiology, is the leading cardiology practice in the northern Shenandoah Valley. Our Physicians and Advanced Practice Clinicians are experienced in echocardiography, stress testing, nuclear imaging, vascular imaging, vascular interventional procedures, along with pacemaker/defibrillator implantation and monitoring. We offer the latest advances in cardiovascular diagnostic and interventional technology along with preventative medicine, and we perform thousands of diagnostic and interventional procedures in the cardiac catheterization laboratory each year.

Know the Facts:

Cardiovascular disease (CVD) remains the leading cause of death in the United States, responsible for 840,768 deaths (635,260 cardiac) in 2016. From 2006 to 2016, the US death rate from CVD decreased by 18.6% and from coronary heart disease by 31.8%.

The annual total cost of CVD in the United States was estimated at \$351.2 billion in 2014-2015, with \$213.8 billion in direct cost, including 46% for inpatient care.

In the United States in 2019, coronary events are expected to occur in about 1,055,000 individuals, including 720,000 new and 335,000 recurrent coronary events.

Patient Stories

There are over 80 million people in the United States living with cardiovascular disease, and every one faces unique personal challenges in managing his or her condition. Some of our patients have shared their experiences with us – and with others who may benefit from understanding the struggles and accomplishments they have faced on the road to a healthier heart.

Serving the Heart and Vascular needs of Winchester and the surrounding communities.

Why Choose Winchester

At Winchester, it is our mission to set the standard for excellence in cardiovascular care and providing the highest quality service to our patients and referring physicians.

We provide the widest range of options for aortic valve treatment. Whether your heart valve is repaired or replaced depends on many factors and both approaches can be highly successful. Our surgeons have the skill and expertise to repair heart valves when others may only be able to recommend valve replacement. In addition, we have experience in performing complex, combined procedures, including multi-valve surgery and combined valve and coronary bypass procedures.

Experience Matters
